

RAIZER[®] M

by Liftup

A LIFTING CHAIR
DESIGNED FOR HOME USE

The Raizer M is a mobile lifting chair design for you and your relatives. It is quickly and easily assembled under the fallen person, and in just a few minutes they are safely back on their feet.

WWW.RAIZER-M.COM

If you have an accident and fall at home, help is on hand with Raizer M. A relative can help a fallen person gently back up - without waiting for an ambulance or other outside help.

For a relative, it is easy to help the fallen person back to their feet. The Raizer M is simply assembled under the lying person and driven up using the crank handle. It takes no effort to operate and the chair rises at a pace convenient for both.

"I am no longer afraid that I may fall, because I know that there will be a helping hand right away – and even from my own wife."

- William, Raizer M user

Being helped by a close relative enhances quality of life

Lying on the floor for any length of time is extremely uncomfortable. Plus, it is stressful for relatives to see their loved one in a vulnerable situation. The Raizer M significantly enhances quality of life because you feel safe to move around when you know you can quickly get back on your feet if you do have a fall. It takes no special skills to operate the lifting chair.

RAIZER® M

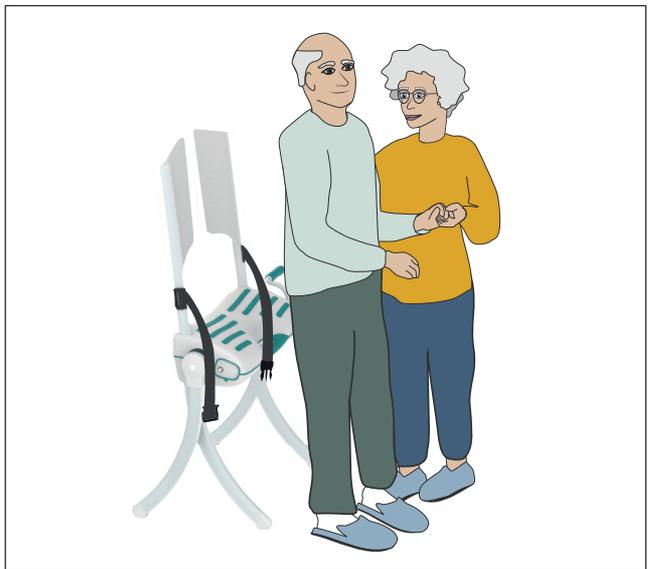

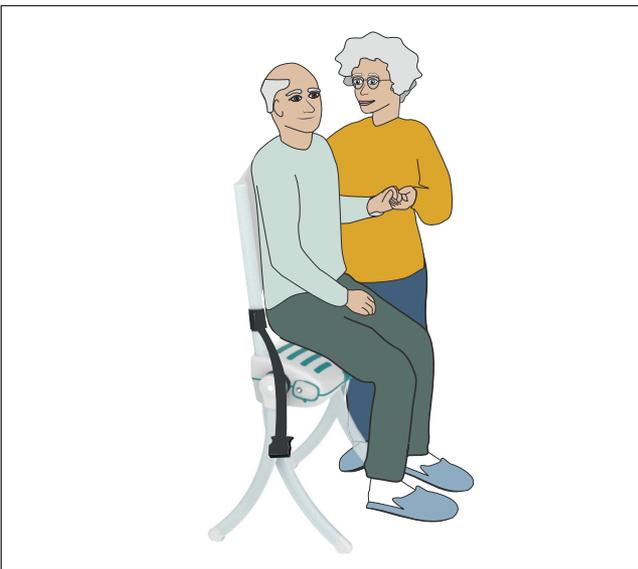

- Safety in your everyday life
- Aid for self-help at home
- Lifting capacity up to 150 kg
- Comfortable and safe lifting
- Easy and intuitive operation

We recommend using the headrest together with the Raizer M. It offers additional safety and stability during the lifting process.

- Available as optional equipment.

Liftup

Liftup designs and develops welfare technology aids based on our values of dignity, safety and equal opportunities for all.

Liftup is a 100% privately owned Danish company located in Støvring in North Jutland with a global distributor network and subsidiaries in several countries.

Aesthetics, design, and safety are essential in everything we do within the field of welfare technology. We do not develop machines, but welfare aids that offer equal opportunities for all
